ABOUT ME

Passionate and adaptable Frontend Developer with a BEng (Hons) in Software Engineering, dedicated to building clean, user-centered web experiences. Skilled in translating concepts into intuitive, responsive interfaces using modern frontend technologies. Strong collaborator with a detail-oriented mindset, thriving in agile teams where communication and continuous learning are core values. Eager to contribute to impactful projects and grow technically and professionally within a dynamic team.

EDUCATION

London Metropolitan University (UK) | 2024-2025

BEng (Hons) Software Engineering

Pearson College London | 2022-2024

Level 5 Pearson BTEC HND in Computing (General)

Esoft Metro College | 2022-2023

Pearson (DiTech) Diploma in Information and Communication Technology

PROJECTS

Event Booking App

A fully functional, web application for browsing, booking events, and generating tickets. Built with React and Tailwind CSS, it features dynamic event listings, search and filter functionality, and a streamlined booking flow.

NEWS App

A responsive frontend news application built with React, Tailwind CSS, and Framer Motion. It features real-time content integration via APIs, delivering a clean, intuitive UI. With smooth animations. The project showcases strong front-end expertise in crafting dynamic, performant, and visually engaging user experiences across all devices.

NFT Website

A smooth, mobile-first front-end project built with HTML, CSS, and JavaScript. Features scroll-based animations, interactive UI components, and a clean, minimal design that emphasizes performance and accessibility. Demonstrates proficiency in building visually engaging and responsive web experiences optimized across devices.

Portfolio Website

A clean, fully responsive personal portfolio site built with HTML, CSS, JavaScript, and React. It features a downloadable resume, timeline-based education & experience, categorized skill sets, and an integrated contact form. Designed to present professional identity with clarity, strong UX, and seamless cross-device performance.

Porsche AI Chatbot

An intelligent, frontend-focused AI chatbot tailored for Porsche enthusiasts. Built using modern web technologies and connected to AI-powered APIs, it delivers contextual conversation, and car-specific insights. The project demonstrates strong expertise in UI/UX, asynchronous data handling in a polished, user-centric interface.

Responsive Fried Chicken Website

A fully responsive, front-end e-commerce website designed for a fictional fried chicken brand. Built with HTML, CSS, and JavaScript, it features animated scrolling, product sections, and a mobile-first layout. The project showcases strong UI skills in building clean, interactive, and user-friendly shopping experiences.

Responsive Headphones Website

A sleek, fully responsive web application demonstrating front-end development skills. Built with clean HTML, CSS, and JavaScript, this project showcases a user-centric design with smooth interactions and cross-device compatibility. It highlights visually appealing, intuitive, and performant web experiences optimized for seamless user engagement.

Responsive-Sidebar-Menu

A frontend-only, fully responsive sidebar navigation menu built with HTML, CSS, and JavaScript. It features smooth slide-in animations, toggle functionality, and adaptive design for all screen sizes. This project showcases core frontend skills in building clean, interactive, and user-friendly UI components.

TECHNICAL SKILLS

Languages :

- HTML
- CSS
- JavaScript
- TypeScript
- C#
- PHP

Frameworks & Libraries :

- Next.js
- SASS
- React
- Tailwind CSS
- React Native
- Bootstrap

Database :

- MySQL
- SQL Server
- PostgreSQL
- PHPMyAdmin

APIs & Backend Services :

- REST APIs
- HTTP Methods
- Role-Based Access Control (RBAC)
- Authentication & Access Control

Programming Concepts :

- CRUD Operations
- Responsive Design
- Async/Await
- JSON

OTHER SKILLS

- Strong problem-solving mindset with a focus on clean, user-friendly design
- Skilled in layout, visual hierarchy, and creating accessible, responsive interfaces
- Detail-oriented with a commitment to clarity, consistency, and code quality
- Effective communicator, able to translate ideas into functional UI
- Collaborative team player, adaptable under deadlines and shifting priorities
